Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

VOTE FOR THE INDEPENDENT UNPLEDGED CANDIDATES

Edited by Citizens' Campaign Committee

To the Voters of Redwood:

For the first time in the history of Redwood City we find ourselves upon the eave of a municipal election with the liquor question as the main issue of the campaign, certain candidates for Town Trustees being pledged upon a platform styled the "Good Government League" to increase the license tax upon saloons.

The Good Government League has issued circulars, used the newspapers and held public meetings for the purpose of defining its stand upon the liqur question and to advance the political interest of its candidates. And we find in the issue of the Redwood City Democrat, under date of April 2, 1908, under the tittle "The Good Government League Department," the following remarkable statement:

> We love a man for his personality, we respect and admire him for his character. As the present crisis demands character as distinguished from personality, we must forget the man's personality and ask only if he has a character to solve some of the problems with which Redwood City is struggling. The 13th of April will put to the crucial test many a man's citizenship.

And in the same article the voter is told that if he does not vote for the Good Government League he has forgotten his citizenship—his duty to himself.

To refer again to the article in question, let us ask what are the problems with which Redwood City is struggling, and which, in the opinion of the Good Government League, can be solved only by taking their prescription? Redwood City has been upon the map for a good many years, has prospered, and her citizens are law-abiding. Her condition has never been, and is not now, so alarming as to require treatment from the Good Government doctor.

As citizens of Redwood City who desire to see fair play, we are opposed to the doctrine of the Good Government League. We are opposed to their anti-saloon platform, and we are opposed to the pledging of their candidates before election. We disapprove of the unfair method by which htey propose to increase the revenue of the town by increasing the license tax upon saloons. There are, it is true, twenty-eight saloons now licensed in Redwood City for the sale of liquor, each paying annually into the town treasury the sum of one hundred and twenty ($120) dollars, or a sum total of three thousand three hundred and sixty ($3360) dollars as against the sum of six hundred and ninety ($690) dollars collected from all other sources of every kind, character and description. In other words, the liquor dealers pay each year five times as much money into the town treasury as all other business houses pay. This money has been used to defray the expenses of the municipality; it has helped fix your streets, pay for your lights, and generally has very materially helped to lessen your taxes, and it has been spent right here where it has been collected. If the liquor business is detrimental to our town, if it is bad money, why does the Good Government League say that it will raise the license tax to six hundred dollars per year, or collect from the saloons sixteen thousand eight hundred ($16,800) dollars instead of three thousand three hundred and sixty (3360) dollars? They say that an increase of the license tax to six hundred ($600) dollars per year will remove at least thirteen of the men now engaged in that business, and they say that by removing thirteen saloons they will have accomplished a great good. The raising of the license will, according to the Good Government League, place the saloon business in the hands of fifteen instead of twenty-eight men. They will have created a monopoly of the saloon business. The poor man whose business does not warrant it, will have to go out of business. The property he isoccupying must go idle. This means that thirteen places—thirteen business houses—must display a "To Let" sign, and, perhaps, if the unfortunate man can not find sutable employment in Redwood City he and his family must move to some other place, and thirteen more "To Let" signs will have to be displayed in the residence portion of town and the merchants of Redwood City must lose that amount of patronage. Wil the Good Government League make good to the town the loss of these thirteen men?

The liquor dealer is entitled to fair play. He resides here, is one of the community. His family reside here. He owes or rents his house. He patronizes the grocer, butcher, baker and clothier. He spends his money where he makes it. His children attend church and school. He is and must, in order to conduct his business, be a good citizen. His money is invested in his business and he is taxed as well as compelled to pay a license. Is it fair that without warning, without notice, without any increasee in the measure of his business, that he should be compelled to pay as a license fee five times what he is now paying? The liquor dealer is entitled to more decent treatment. In order to do business five reputable ctizens must vouch for his character. He must give a one thousand dollar bond, with two good sureties. He must abide by the laws of the town or he forfeits his right to carry on his business, and his bondsmen are liable in damages. No other business is so burdened. No other business is so carefully watched and scrutinized. No other business is so heavily taxed, and yet the Good Government League insists that their candidates if elected, must raise the liquor license five times higher than at present. And why this hue and cry against the saloons? What has the saloon done to merit such treatment?.

Many of us have resided in this town more than a quarter of a century We have raised our families here. We expect to live the balance of our lives here. We are not saloon men but we believe in the good old American doctrine of fair play. Look over the records of your courts and find one single instence, if you can, where the saloon man has been found guilty of one violation of the law, and compare your town with prohibition Palo Alto and with prohibition Mayfield and tell me if there are as many drunken men to be seen here in a year, as you can see and find ineither of the other two towns each week. The saloon has not hurt Redwood City. Some of its best citizens are now in that business and some of its oldest and most respected citizens were saloon keepers and they have raised families that are a credit to themselves and to the town. High license is unjust, it is discriminating, it is unfair legislation and is Un-American. In all communities we find some people who are always dissatisfied, People who think they could make can. In all communities we find some exsisting conditions better, people who who are always ready to censure and condemn; and such people are the kind of people who are agitating the issues raised by the Good Government League. We do not believe that any set of men, or any organization, should attempt to dictate the policy of the town; and when the Good Government League has arrogated to itself that right, by pledging its candidates for high license, it is fit and proper that the citizens and voters of this municipality should stamp with disapproval such high-handed proceedings. If high license is desirable, then let that issue be presented to the people. Let them vote upon the question "In favor of, or against high license." Let an election be called for that purpose and if a majority of the citizens demand high license, then let the Trustees be asked to carry out the will of the people, but not attempt, as the Good Government League is now trying, to force high license down the throats of the people through their candidates for trustees.

Redwood City has a reputation for good schools, good streets, good climate and good citizens. No one has been injured by her saloons. They are subject to regulation by our Board of Trustees. Any order or law that the Trustees may lawfully pass must be obeyed. The saloon question is one purely of regulation and if theconduct, the management, the carrying on of the liquor business in Redwood City is not at present satisfactory then pass such laws as will regulate the business, and when the liquor dealer violates them take away from him his license.

The saloon business in Redwood City is idifferent from almost every other town along this Peninsula. Here all the saloons are on the main business streets where they are subject to close scrutiny. Not a single saloon can be found in the residence district. Your homes are not annoyed. They are not near your children. They are not near your churches, however, the saloon man is the most generous contributor to your churches and to charity. The exsisting conditions in Redwood City compare favorably with any other city of its size in California, and the Good Government League can not, by its proposed method, improve it.

The citizens who have placed themselves before you without any party designation, without any circle (O) above their names, but as free, unpledged, independent candidates are worthy of your support. When you mark your ballot on election day. put a cross (X) after the name of EACH candidate for whom you desire to vote. Don't stamp the circle (O) THAT means high license, prohibition, monopoly. It means distress, vacant stores and vacant houses. Let us be satisfied as we are. Redwood City was good enough for our fathers, it is good enough for us. Vote for Butts, Wilson and Cumberson, Towne, Plump and John Christ and place a cross (X) after each of their names.

OLD CITIZENS.

The Candidates

Next Monday othe voters of this city will be cled upon to vote for candidates to carry on the government of Redwood City and it may not be amiss to say a few words for the gentlemen who are independent candidates for office.

Henry F. Butts a candidate orf Town rtustee, has resided in Redwood City for more than twenty years; was born in San Mateo county, and for more then twelve years was deputy and Under sheriff of the county. He is a man of broad experience, genial disposition, good judgment and unblemished character. He is now engaged in the contracting business and is honest and trustworthy. Mr. Butts is elected, will make an excellent record as Trustee. he is a capable street builder, a good financier and a man who has at heart the interest of the town.

Thomas Wilson, candidate for Town trustee, is now engaged in the livery business, managing two stables, and has proved himself to be a capable and successful business man. Mr. Wilson's interests are all in Redwood City. He is a man of family, an untiring worker, and a progressive citizen. Mr. Wilson, if elected Trustee, will devote to the duties of the office, that same care, industry and zeal that has made him successful in his private business .

Charles E. Cumberson, candidate for Town trustee, is a man of mature years, a resident of the Roosevelt Avenue district, where he has purchased ten acres of land and is building thereon a beautiful country home. Mr. Cumberson is one of our new residents, who, after travelling over all parts of California in search of a location for a home, decided to permanently locate in Redwood City. He is a man of broad ideas, progressive and up to date, he is a staunch advocate of good streets, good schools and a firm believer in the future greatness of Rebwood City. Mr. Cumberson will be a welcome addition to our Town Board and will make a progressive, up-to-date Trustee.

John Christ, the present incumbent and candidate for re-election for the office of Towu Marshal, is known to every resident of Redwood City for more than twenty-five years he has held his present office, and can look proudly back upon his past record; during all all these years Mr. Christ has collected hundreds and hundreds of thousands of dollars, and each year his accounts have been found true and correct to a cent. He has served the people of Redwood long and faithfully and deserves and no doubt will be re-elected.

For the office of Town Clerk, Carl Plump is the independent candidate. Mr. Plump was born and raised in Redwood City, attended the public school here, and for many years was associated with his father, the late Gevert Plump, in the grocery business, succeeding to the business a short time ago upon the death of his father. The "Old Plump Grocery," a brick building was shaken down by the earthquake of 1906, but with indomitable courage and energy and evidencing a strong belief in Redwood, the elder Plump and his son, Carl, started immediately the erection of a new building upon the site of old, and upon the old corner, but in a new building. Carl Plump is now conducting the business started by his father a quarter of a century ago. Carl Plump is a courteous, obliging and progressive citizen of Redwood City, fully conversant with the duties of Town Clerk, capable to fulfill the duties of the office, and his friends and his friends make no boast when they predict that he will receive the largest vdte of any candidate.

Frank Towne, independent for Treasurer, is so eminently suited and fitted for the responsible office of Town Treasurer that the Good Government League did not nominate anyone in opposition to him. He will win in a walk and with Butts, Wilson, Cumberson, Plump and Christ, complete the victory of the Independent Ticket.

Came as Surprise

J. J. McCarthy, deputy coroner at San Mateo has been married since January 2, 1907 to Miss Ellen Burn of Sacramento. The reason for keeping the marriage secret is stated to be because the bride is a school teacher in the Capital and a regulation of the school board there prevents married women from holding a position in the schools.

"The Meanest Man That Ever Lived,"

by Bruno Lessing, in May's Cosmopolitan, is a capital good story. It reminds one of the story of the merchant who, after making an agreement with his competitor to sell sugar at 15 pounds for $1, quietly ignores the agreement made in his competitor's store hands out 16 pounds and then is foolish enough to clinch an argument, as to the meanest man in town, against himself by publishing the fact.

We would suggest that at least one copy be purchased by a Redwoodite and read.

Spring Sarsaparrilla

There's no better Spring Tonic made than Nyal's Sarsaparilla. Its just the right combination of herbs and iodides to put the human system in the finest condition after the "slowing up" of winter.

We know the ingredients, and know how it is made. That's why we recommend it so heartily. The iodides are the greatest of all blood purifiers; it has senna and mandrake to act on liver and the sarsaparilla is reinforced with good old fashioned herbs that never fail.

The following communication was received from the board of fire commissioners of San Francisco: To the Honorable , the Board of Supervisors of San Mateo County, Gentlemen: It havjng come to the official notice of this board through a report received from one of our battalion chiefs, that engine company No. 33 of this department, which is stationed at Ocean View, near the county line, was called some distance across said line into San Mateo county recently, to extinguish a fire there, and at which the said company worked for over an hour. This incident brought up the question whether it would be proper for this board to allow this fire company to continue this practice which owing to the rapidity with which this section of our country is being built up, is liable to be of frequent occurrence, and in justice to the residents of this city and county in the vicinity of Ocean View, who are dependent upon this company for fire protection, we have come to the conclusion that we cannot allow this company to respond to alarms of fire across the county line in the future, except on extraordinary occasions. We respectfully desire to inform you of the action taken in this matter in order that the residents of your county near the line may be aware of the fact that they must not look to this company for fire protection in the future, Very respectfully yours, Board of Fire Commissioners, of the city and County of San Francisco.

Gentlemen:—

Referring to the petition of the San Pedro Land and Dairy Co., for a rebate of Personal property taxes paid by them at their ranch at San Pedro, San Mateo Co., for the year 1907 and referred to me at your last meeting I beg leave to reply that upon investigation I find that said upersonal property was sold to one Brown about February 15th, 1907, who paid taxes on same. Under the conditions I recommend that their claim of $87.15as appears on attached tax receipt, be allowed and paid., Respectfully, C. D. Hayward, County Assessor

J. Canfield applied for a reduction of 15 days on hissentence of three months and said application was referred to the District attorney.

An agent of the Standard Cement addressed the Board in reference to his brand of cement. He was told that a different kind was named in the specifications and none other would be used.

On account of the withdrawal of his bondsmen, the office of pound-master of the First Township was declared vacant.

Chairman Coleman was authorized to enter into a contract with R. P. Schwerin to build and macadamize 1333 feet of road in the First Township. This is the new boulevard which is being built into this county from San Francisco.

Chairmgan Coleman explained to the board that he had visited the county poor farm and found the sewer water on the top of the ground and was a menace to the health of the inmates. He declared the foul smelling water should be disposed of in some way. On motion of MacBain seconded by Eikerenkotter the Poor Farm Committee were given full power to act in constructing a sewer and cesspool.

On moton of Blackburn seconded by Eikerenkotter Supervisor MacBain was authorized to have the county surveyor prepare plans for two small wooden bridges in his district

The auditor was directed to prepare a statement of the amounts taken from the general fund for bridge building and improvements in each township since July of last year and present it at the next meeting.

WILL TO BE CONTESTED

A highly sensational will contest was filed in the Clerk's office yesterday by Ross and Ross, attorneys for Julia Storch, John W. Gorey,Dennis M. Gorey, Margaret Walsh and John W. Dunn, nephews and nieces of the late Matthew Crow, who died at Ravenswood in this county, March 11, 1907. Mr. Crow was a well known and wealthy farmerwho had gained a competency in business in Virginia City in early days. He invested his money in a farm at Ravenswood and shortly before his death disposed of it to J. F. Parkinson of Palo Alto for $65,000.

Mr. Crowmarried his second wife a little over two years before his death and to her he bequeathed the bulk of his estate which is valued at abcut $75,000. The will was executed February 18th, 1907 and among the devisees and legatees were the nieces and nephews who wer left $1000 each. Large sums were also bequeathed to a number of Catholic societies.

The will is contested on six separate counts. It is alleged that the pretended will filed for probate is not the will and testament of Matthew Crow, that he was not able to make a will the time it was alleged it was executed, that Mary Crow, his wife used undue influence over him and compelled him to execute the same. He was very sick, suffering intense pain and was both mentally and physically weak and she took advantage of his condition. In order to obtain in his own house any quiet, or, peace, or rest ,was forced and compelled to comply with and submit to the wishes and demand of Mary A. Crow. That the said Mary A. Crow did give and furnish to and suffer to be taken by Matthew Crow large quantities of intoxicating liquors to his severe injury mentally and physically, that in furtherance of her designs she caused him to be moved from place to place. Because of her authority over him he was unable to resist her influence being weak and suffering. great bodily pain. Not having sufficient strength to resist her he was compelled to go to Redwood City and there compelled to execute the will that was filed for probate on the 23rd of last April. The complaint further alleges that she led him to believe by false representation that should he die before the expiration of thirty days from date of execution of the will it would become null and void and would have no force and effect and his estate would be administered upon just the same as if her had died intestate.

Other sensational charges are made.

The complaint alleges that Matthew Crow was an illiterate man who knew nothing of Japanese or Negro Missions and was prejudice to French Catholics and foreign missions of all kinds. To all of these he left bequests.

A bitter legal battle will ensue over the big estate and a fight to the finish will take place.

The bequests are as follows: To Mrs. Mrs. Maggie G. Walsh, Mrs Julia G. Woodside Chips

Harry Hallet is enlarging his business in Portola by the addition of a saloon which he is building on the front of his property.

C. K. McIntosch is having extensive improvements made on his home in this place. Robert Brown is doing the work.

The death of James Bissel who was found dead in his cabin back of Tripp's store removes from Woodside a very strange and eccentric character. Bissel lived for years, with his brother who died some years ago, and made a living by hunting game but game becoming scarce the y next took to wood choping. Little is known of the early life of Bissel but it has been said they were well connected in England.

Rain is badly needed in this section and unless it comes pretty soon there will be short crops this season.

The base ball team is practicinig, up and expects to make a good showing on the damond this year.

The family of T. Sanford have moved out from the city and will occupy the Mc Arthur cottage for the summer.

The rock chusher started up last Monday. The roads in this section will be put in the best possible condition for the summer.

MENLO PARK HAPPENINGS

There were many real estate investors here during the week. Frank Kirkpatrick, the local agent, reports several good sales.

The home of Mrs. W. J. Adams at Fair Oaks was destroyed by fire Monday. The loss is $20,000, partially covered by insurance.

The fish and game laws approved March of last year work a hardship on local Ike Waltons. Under the new law the trout season does not open until May first. The San Francisquito Creek which has always been a good trout stream dries up usually about that time thus destroying the sport. There is excellent fishing in the stream now but no one is allowed to cast a line. By thefirst of the month there will only be a few pools left for the fish.

William Beard is moving the two houses recently purchased from Dr. Whitewolf to hs property in the Mills tract.

The Menlo Park base ball team, James Maloney manager, will play a game from Redwood City on the local diamond tomorrow.

Timothy Hopkins will move down from San Francisco to day for the Summer.

The French Laundry moved to its new quarters Monday. Nearly $2000 worth of machinery has been installed in the building, putting the laundry in a position to do first-class work.

It s reported that 14 new families have rented houses at Fair Oaks for the summer0.

A Fourth of July celebration will take place here under the auspices of the Ancient Order of Foresters. A big parade will be the feature of the occasion. The Foresters Brass Band of San Francisco will be in evidence There will be oratory, patriotic songs, fire works and illuminations and dancing at night. J. H. O'Keefe wil be grand marshal. The orator of the day will most likely be J. J. Bullock, the eloquent District Attorney of the County. A celebration was given by Court Menlo some thirteen years ago and it was a great success.

The Misses Byrne were hostesses recently at an informal tea at their residence, 3659 Seventeenth street, in honor of Miss Frances Foley, a popular bride to b.e Covers were laid for twelve. The table was daintily decorated in pink. Miss Foley's marriage to C. T. Maloney, a popular young man of Menlo Park, will take place shortly after Easter.—San Francisco Leader.

At the 23rd anniversary of Napa Parlor N. S. G. W. April 10th. Outside sentinel James Fitzgerald responded to the toast "Loyalty."

Stanford Park presents a busy scene these days. A large force of men is digging sewer and water trenches and laying the mains at the rate of about a thousand feet a day. The tract will be put in first class condition before it is offered for sale. The sewer and water mains are being layed The streets crowned and oiled. A splendid assortment of selected shade trees has been planted along the avenues. Stanford Park fronts on the university grounds and is but four city blocks from Menlo Park depot. The lots are all unusually large. No lot has a frontage of less than sixty feet and the average depth is 150 feet. R. Keatinge of Palo Alto has purchased six lots in this tract at a price of $6500. These lots face the creek opposite the Stanford residence.

Japanese are daily shipping from this pont large quantities of clams to San Francisco. The Japs dig them from the sloughs at Ravenswood and soon these bivalvs will be a thing of the past. There should be something done to prevent this wholesale shipment to the City.

Miss Isabell Weeden celebrated the 12th anniversary of her birth at the home of her parent's Mr. and Mrs. Harry Weeden Wednesday afternoon. A party was given to 25 young people, school mates of Miss Weeden. Miss Amelia Smith secured the silver thimble in the prize fruit cake while twelve other little tots received dolls that were also in the huge cake. A delightful time was had and all departed wishing Miss Isabell many returns of the day.

TALKS ON TEETH

BY
DR. VAN VROOM

It seems a wonderful and impossible thing to the average "plate" wearer that we can put teeth in the mouth and make them stay there firmly without the use of a plate.

Almost the first question put to us by a plate victim is, "How can you do it? and what holds them in place?"

The Alveolar method of putting in teeth is our secret. The fact that we do the work successfully and that it is both beautiful as well as successful, is proof the secret is valuable.

Given two or more teeth in either jaw, tight or loose ones (we make the loose ones tight) and healthy, we promise to put in a beautiful set of teeth, each tooth set independently of its neighbor, the whole forming a piece of work that cannot be told from the best that nature can do.

Will they last?

The question usually follows.

We can show hundreds of cases that have been in upwards of four years and are, if anything, more firmly intrenched today than when the work was finished.

They will outlast those who are wearing them.

Will you come in and let us look your teeth over? The consultation and examination are free.

No obligation goes with it to have any work done unless you wish to employ our services.

If we can enable you to do away with a wabbly, unclean, unsatisfactory, painful plate, wouldn't it be the greatest service that could be done for you?

Half the charge of others.

CAUTION—Look out for imitators and impostors. We have NO OFFICES outside of those given below.
